TÜV SÜD America Attestation: 72160895-NGV3.1, Rev. N/A

ATTESTATION

Attestation Number: 72160895-NGV3.1, Rev. N/A

Issued To: DK-Lok Corporation
7, Golden root-ro 129beon-gil, Juchon-myeon
Gimhae-si, Gyeongsangnam-do 50969
Republic of Korea

Standard: Fuel system components for compressed natural gas
powered vehicles
ANSI / CSA NGV 3.1:20

Components: DK-Lok components in various shapes and sizes per annex 1.
The Service Pressure is 293 bar with an Operating Temperature
range of -40°C to +120°C.

As an independent inspection agency, TÜV SÜD America attests that representative DK-Lok valves, check valves, filters and pressure relief valves per annex 1 attached, have met all the design and test qualification requirements of Fuel system components for compressed natural gas powered vehicles per ANSI / CSA NGV 3.1:20.

These components were designed and tested for use with compressed natural gas. These components should be installed, used, and maintained in accordance with the manufacturer's instructions.

Prepared and approved by:

A handwritten signature in blue ink that reads 'André Frégeau'.
