TÜV SÜD America Attestation: 72160895-NGV1, Rev. N/A

# ATTESTATION

**Attestation Number:** 72160895-NGV1, Rev. N/A

**Issued To:** DK-Lok Corporation  
7, Golden root-ro 129beon-gil, Juchon-myeon  
Gimhae-si, Gyeongsangnam-do 50969  
Republic of Korea

**Standard:** **Compressed natural gas vehicle (NGV) fueling connection devices**

**Components:** DK-Lok components in various shapes and sizes per annex 1 attached.  
The Service Pressure is 341 bar with an Operating Temperature range  
of -40°C to +120°C.

As an independent inspection agency, TÜV SÜD America attests that representative DK-Lok receptacles in various shapes and sizes, per annex 1 attached, have met all the design and test qualification requirements of NGV 1-2017.

These components were designed and tested for use with compressed natural gas. These components should be installed, used, and maintained in accordance with the manufacturer's instructions.

**Prepared and approved by:**

A handwritten signature in blue ink that reads 'André Fréreau'.

André Fréreau, MPM.  
Manager Alternative Fuels  
TÜV SÜD America,  
Industry Service Division  
08/02/2022.
