TÜV SÜD America Attestation: 72160895-NGV4.6, Rev. N/A

ATTESTATION

Attestation Number: 72160895-NGV4.6, Rev. N/A

Issued To: DK-Lok Corporation
7, Golden root-ro 129beon-gil, Juchon-myeon
Gimhae-si, Gyeongsangnam-do 50969
Republic of Korea

Standard: **Manually operated valves for natural gas dispensing systems**

Components: DK-Lok components in various shapes and sizes per annex 1 attached. The Service Pressure is 293 bar with an Operating Temperature range of -40°C to +120°C.

As an independent inspection agency, TÜV SÜD America attests that representative DK-Lok manual valve in various shapes and sizes, per annex 1 attached, have met all the design and test qualification requirements of NGV 4.6:20.

These components were designed and tested for use with compressed natural gas. These components should be installed, used, and maintained in accordance with the manufacturer's instructions.
